Aakhil Malek

aakhilmalek@gmail.com | +91 8888825325 | https://aakhilmalek-dev.github.io/ | Ahmedabad – Gujarat, India.

AN OVERVIEW

- I have over 7+ years of experience in the IT industry, with strong expertise in Bootstrap, Tailwind, HTML, CSS, JavaScript, jQuery, and CMS platforms. I have also worked extensively with modern frontend frameworks, including Angular, React.js, NextJs, and Vue.js. On the backend, I have built RESTful APIs using Node.js, Express.js, GraphQL, and MongoDB, contributing to improved application performance and backend efficiency.
- Proficiency in creating user-friendly and responsive web pages with pixel perfect.
- Adding smooth animation on website using wow animation and other scrolling animations like GSAP.
- Good understanding of design process and UI/UX principal and SEO.
- Experience with design systems, component libraries, and maintaining consistent UI/UX standards
- Worked closely with Development, QA, Project Management, and Product teams to ensure timely and cost effective delivery of final products.
- Agile in providing effective resolution to customer queries related to product and improving relationships with the customer by anticipating customer future requirements, thereby ensuring a positive customer experience.
- Actively participating in Agile methodology, including Sprint Planning, Daily Stand-ups, Sprint Reviews, and Retrospectives.
- Excellent communication & interpersonal skills with abilities in resolving complex design issues.
- Interviewing and candidate assessment, code review etc.
- Successfully managed a team of 5 members, resulting in a increase in project efficiency and delivery.
- Uses AI tools (ChatGPT, Claude, Amazon Q, Cursor, Windsurf) for code enhancement and development.

SKILL SET

Technical Skills:

Frontend:	React.js, Angular, Vue.js, Next.js, Redux, JavaScript (ES6+), TypeScript
Backend:	Node.js, Express.js, GraphQl, MongoDB, REST APIs
UI/UX:	HTML5, CSS3, SCSS/SASS,Chakra UI, Bootstrap, Tailwind CSS, Material UI, Figma, Adobe XD
Tools & DevOps:	Git, GitHub, Bitbucket, Jira, AWS, Azure, Docker, Vite, Webpack, CI/CD
Other Expertise:	Responsive Design, SEO, Accessibility (WCAG), Performance Optimization, Component Libraries, Design Systems
AI tools:	ChatGPT, Claude, Amazon Q, Cursor, Windsurf, Kiro IDE

Functional:

- Interfacing with business analysts and external stakeholders for business requirement gathering, conducting system analysis and finalizing design/functional specifications.
- Participate in sprint planning for delivering testable product increment.
- Define best practices for project development and provide critical technical solutions to complex functionalities.
- Designing, developing, testing, troubleshooting applications and guiding teams to adhere best practices.

- Cooperating & communicating with development and QA teams for efficient work management to deliver sprints successfully.

PROJECT OVERVIEW

Community Engagement Platform (Tradewing)
A cloud-based community engagement platform that enables professional associations and organizations to connect members through communities, events, networking, messaging, and knowledge sharing. The platform enhances member engagement with collaboration tools, analytics, and content management features.
URL: https://www.tradewing.com/
Duration: Nov 2025 – Present
Environment: React.js, Next.js, GraphQL, MongoDB, TypeScript,ChakraUI, HTML5, CSS3, Git

---

Surety Bonds Website (JWS)
A Surety Bond is a binding contract between three parties — the principal, surety, and obligee. The website facilitates the management of surety bonds, ensuring compliance and providing claim-handling mechanisms when obligations are unmet.
URL: https://www.surety-cloud.com/
Duration: 2 Years
Environment: Bootstrap, CSS, jQuery, Angular, AWS

Verifibill
A benefits billing solution for employers that simplifies benefits administration and payment management.
URL: https://beneration.com/benefit-solutions/
Duration: 1 Year
Environment: Bootstrap, SCSS, Angular, Azure

TRooTech Digital Engineering Platform
A cloud-based enterprise platform that delivers scalable digital solutions for custom applications, enterprise workflows, and content management. Developed using Next.js, Strapi CMS, and Tailwind CSS to provide responsive, high-performance, and maintainable web applications.
URL: https://www.trootech.com/
Duration: Nov 2025 – Present
Environment: Next.js, React.js, Strapi CMS, Tailwind CSS, TypeScript, HTML5, CSS3, Git

---

LegalSpace AI
An AI-powered legal technology platform that helps legal professionals streamline document drafting, contract review, legal research, and case management through intelligent automation and collaboration tools.
URL: https://legalspace.ai/
Environment: Next.js, Node.js, Material UI (MUI)

Furniture E-commerce Website
An online platform for selling furniture products with advanced product filtering, responsive UI, and a smooth checkout process.
URL: https://www.woodenstreet.com/
Environment: Bootstrap, CSS, ReactJS, Next.js, Node.js

---

online business auction platform
Auctivio helps companies and professionals buy and sell business assets through secure digital auctions.
URL: https://auctivo.net/en
Environment: Vutify, vue.js, Node.js

Hotel Booking System
A web and mobile-based platform that enables users to search, compare, and book hotel rooms and services worldwide.
URL: https://www.traveluro.com/
Environment: Bootstrap, CSS, jQuery, Angular

Educational Website
An online learning platform where students can access study materials and tutors can upload and share video lessons.
URL: https://www.educastic.com/
Environment: Bootstrap, SCSS, jQuery

Other Notable Projects (50+ Completed Over 5 Years) Websites:
legalspace.ai | trootech.com | inrelay.com | educastic.com | techstager.com | qexplus.com | youhue.com

---

Other Project Categories:
Healthcare • E-commerce • Educational • IT Services • Hospitality • Gaming

Domain Knowledge:
Financial Domain • IoT Domain • Point of Sale (POS) Systems • Medical Domain • Content Management Systems (CMS)

WORK EXPERIENCE & EDUCATION

Senior Frontend Developer –IQR Technosouls| Nov 2025 – Present
Working remotely as a Senior Frontend Developer at IQR Technosouls since November 2025, on a community engagement platform, building scalable and high-performance web applications using React.js, Next.js, GraphQL, and MongoDB. Collaborating with cross-functional teams to develop new features, optimize application performance, and deliver a seamless user experience.

Frontend Team Lead / Software Developer – TRooTech Business Solutions | April 2021 – Present
I have been working at TRooTech Business Solutions as a Team Lead and Developer since April 2021, leading frontend development initiatives.
